

IHMSA Silhouette

Pistol Clinic

The International Handgun Metallic Silhouette Association started in 1976 with the purpose of promoting handgun silhouette competition. The object of the competition is to knock down metallic silhouettes (chickens, pigs, turkeys and rams) at various ranges to a maximum of 200 meters. The sport has spread to many countries and matches are shot all over the USA. Many different types of matches are shot and there is always one to suit any member of the family. The matches vary according to handgun type (.22 to big bore) and shooting position (standing to free style). We pride ourselves in our diversity as IHMSA is open to men, women and children of all ages and physical abilities. Locally we shoot at the Wildcat Valley Rifle and Pistol Club which is located just a couple of miles south and west of Brookston. The matches start at 10 a.m. on every second Sunday through October of this year. Join us on June 11 for an informational clinic to help the new shooter understand our sport of organized plinking. There is nothing quite like the sound when you hit the steel target and watch it fall over.

Come to our free clinic on Saturday June 11 at 1 p.m. and learn more about this exciting sport
