

2019 Wildcat Valley Highpower League Match Program

The WVRPC Highpower League will begin on the last Tuesday of March and will conclude the last Tuesday of October (see schedule). The first relay will commence at 5:15 PM with the second relay starting 15 minutes after completion of the first relay. Beginning time may be modified as reduced daylight later dictates. The League may be suspended for Camp Perry. The matches will be held at the WVRPC Highpower range near Brookston, IN.

Membership in the WVRPC Highpower League is approximately twenty (20) WVRPC members and non-WVRPC (both NRA & non-NRA) members, as our protected-pit range has ten firing points, and daylight availability limits us to two (2) relays, designated as "A" and "B" for scheduling purposes. Members will be assigned "A" or "B" when they join the league. Those shooters joining after the first 20 attend the matches at their own risk. Absences are common due to work, travel, etc, and we generally have no problem slotting shooters into relays on any given night.

A flat fee will be charged at sign-up. For WVRPC members and those in process of joining: \$50; for non-WVRPC members: \$70; Junior shooters (under 18 years old) and college students: \$25. *Please provide payment in the form of a check made out to [Wildcat Valley Rifle and Pistol Club](#).* These fees cover the sanctioning fee remitted to NRA, plus cost of targets, range upkeep, etc. Payment is required in advance to avoid handling money at matches. Latecomers joining the league may have their fees prorated over the remaining firing days.

The course of fire will be a modified 80 Shot Regional Course (NRA Rules 7.15 & 8.2). This will be an 80-round 200-yard and 300-yard course of fire. The match will consist of the following:

AT 200 YARDS

Standing Offhand Slow Fire SR Target: 20 rounds in 20 minutes
Sitting Rapid Fire SR Target: 2, 10 round strings in 60 seconds each.

AT 300 YARDS

Prone Rapid Fire SR-3 Target: 2, 10 round strings in 70 seconds each.
Prone Slow Fire MR63 Target: 20 rounds in 20 minutes

On the first week, the 200-yard segment of the match will be fired. On the second week, the 300-yard segment will be fired. A League member must fire a 200-yard segment and a 300-yard segment for League scores to be recorded. The first 200-yard segment fired will be matched with the first 300-yard segment fired, and so on. Per NRA Rule 19.13, total score vs total shots fired during League in matched segments will be turned in to NRA for each participant immediately following the end of League.

NRA High Power Rules will apply. Alibis will be fired at the end of the second string of rapid fire. To save daylight, "block time" will be used, combining prep time and two sighter shots in one five minute block for rapid fire events; for slow fire, combining prep time, two sighter shots and 20 shots for record in one twenty-five minute block.

League members must participate in at least one third of the weekly match segments in order to qualify for League awards. League Secretary will maintain up to date scores by individual in Excel.

2019 WVRPC (Tuesday Night) Highpower League dates:

Please Note: The first course of fire will be from the 200 Yd Line. The second course of fire will be from the 300 Yd Line. Each week will alternate the course of fire from the last course of fire completed. (eg. If 4/2 is rained out, 4/9 will be shot from the 300 Yd Line.)
