Membership renewal letters will be mailed to the member 6 weeks prior to the due date. 3. MEMBERSHIP DUES AND WORK REQUIREMENTS

- 3.2 Deposits will be charged for each key issued. The deposits will be refunded upon return of the keys. Money collected for key deposits will be placed in the Club's treasury. Members in default of dues and not making a report to the membership at a Club meeting are no longer members of this Club, and must return their keys.
- 3.3 Each member attending a particular function may be required to contribute to defray the cost of such function, as determined by the Club.
- 3.4 Each member must contribute service to the Club as required, as a condition of membership. All members (with the exception of any member 62 years or older) are obligated to perform 12 hours of work for the good of the Club per annum as part of their membership requirement. One half (1/2) hour work credit is given for attendance at a membership meeting.
- 3.5 Members delinquent in work hours shall redeem the hours not worked at \$10 per hour.

4. BUDGETS REQUIRED FOR SHOOTING DISCIPLINES AND RANGE IMPROVEMENTS

- 4.1 For the purposes of this operating rule, the Operations Officer or his designee will assume the role of a Discipline Chair in planning annual range maintenance and long term capital improvements to the Club's property as a whole.

- 4.2 Each Discipline Chair shall formulate and present to the Executive Committee an estimate for consumable items such as pasters, targets, backers, cardboard, etc. The chair will plan a basic budget that will allow him to operate all scheduled matches for a given year. The basic budget will be formulated on an annual basis before the start of each activity's season.
- 4.3 Each Discipline Chair will also plan for infrastructure and capital items that represent large one-time expenses – for example projects in excess of \$2000.00. This category would include expenses as trap machines, permanent target frames, range gravel, backstop repairs, and so forth. This forecast would include replacement, repair, or major maintenance projected over the following three years. The Executive Committee may allocate additional funds for these capital projects on an *as-available* basis. The capital project forecast will be updated annually at the start of each activity's season.
- 4.4 The basic budget and the three-year forecast for each discipline will be submitted to the Executive Committee for consideration. There may be more items requested than the club can afford in any one year, thus the committee may have to defer some items to a later year. Once these budgets are accepted by the Executive Committee, they are brought to a membership meeting for final approval as they become available.
- 4.5 If there is an unforeseen expense, or emergency expense, during the year such as storm damage, catastrophic equipment failure, vandalism, and so forth, a request can be made only to the Executive Committee for approval to bring a spending authorization motion to the floor of a membership meeting. If the Executive Committee does not approve the request, then it will not be sent to the membership for further action. The Executive Committee will act as the gatekeeper concerning unplanned large expenditures.
- 4.6 If the item is genuinely necessary, or an understandable oversight in budgeting occurs, and the treasurer verifies that funds are available, then the Executive Committee can grant approval to bring a major spending motion to a vote by the membership.

8. USE OF CLUB-OWNED FIREARMS

A Club-owned firearm may be checked out to any Club Member by the responsible Discipline Chairman for a maximum of one (1) month of use. No corrosive ammunition may be used in these firearms. In the event such ammunition is accidentally used, the responsible person will immediately clean the firearm with hot water and soap and have it checked over by the Discipline Chairman or his delegate within twelve (12) hours.

9. CLUB CALENDAR OF EVENTS

The Operations Officer shall oversee the development of an official Club Calendar of Events (activity schedule), running from March 1 of the current year through February of the following year. Discipline Chairmen, or any other officer wishing to submit an approved event for the following year, must submit those dates to the Operations Officer or his designee no later than December 31st. The Operations Officer or his designee will resolve all range conflicts and publish an official calendar, which shall be mailed to all members, and posted on the Club website. Any scheduled event on the Club calendar has precedence over individual shooters on a scheduled range. Also see Operating Rules 9.1 and 15.4.

- 9.1 New Shooting Events. The Club must approve a new shooting event or a major modification to an existing shooting event. Approval must be given by the Safety Committee, the Executive Committee and at a regular membership meeting. This process must be completed before the new event is scheduled.

Trash generated by a Club member will be removed by that member for proper disposal away from the range. Such litter includes used targets, paper, cardboard, cans, plastic, glass, unfired ammunition and any other debris. This operating rule will apply to trash generated within the clubhouse or at another place on the range. It is recommended that - whenever practical - spent cartridge cases will be picked up and removed by each member. Event chairmen will ensure that no trash remains after their event or activity is complete. Burning of trash by members is prohibited unless prior authorization is obtained from the Executive Committee for special situations.

11. MATCH RULES

- 11.1 All scheduled matches or competitions held by the Club will be governed by and conducted consistent with the rules and regulations of the sanctioning entity, if any, affiliated with the match or competition. 13. RANGE RULES ARE CONSIDERED OPERATING RULES

Range rules are compiled and published by the Orientation and Safety Committee with input from Discipline Chairmen. They are binding on all members and guests, and every member must sign and return a copy when he joins, and with his annual dues renewal signifying that he has read and understands them. He will retain one copy for his reference.

15.4 Application for range use shall be made by the December regular meeting for the following calendar year. This application will be forwarded to the Range Use Committee for consideration. This is so the dates and events can be placed on the yearly club calendar. Applications made after the December regular meeting must be approved as above and announced at a regular meeting for membership approval at least 60 days in advance of the event so the change to the schedule can be placed in

the newsletter and the web page. Large events may require the applicant to pay for a mailing to notify the membership.

- 15.5 Applicants will comply with all procedures and policies set by the Club.
- 15.6 Applicants shall provide proof of insurance, satisfactory to the Club.
- 15.7 A fee may be charged to offset expenses the club may incur, and a damage or cleanup deposit may also be charged.
